

# Advance Hypnosis Training -With Ines Simpson

Geneva 25 26 June

In English with French Translation

**Learn the Protocol that's taking the European & North American Hypnosis World by storm.**

The New Paradigm in Hypnosis Communicating interactively with the super-conscious mind whilst in the Esdaile State. This deep hypnotic state has a direct impact on healing. One characteristic of the Esdaile State (hypnotic coma) is the profound inability of the client to communicate with the hypnotist... UNTIL NOW. **This advanced training will teach you** all you need to know about this new paradigm shift in hypnosis. You can now communicate directly with your client's Super-conscious mind, and direct it to release all issues that are not in their best interest or benefit. An advantage of working in the Esdaile State using the Simpson Protocol is that, with proper questioning, direction and communication with the Super-conscious mind, your client doesn't have to verbalize the issue, if that is their wish. So, it's wonderful for those sensitive to the issue they are working on, or uncomfortable with verbalizing the problems they want to deal with. With the Simpson Protocol, you are able to give the client unprecedented access to the Super-conscious Mind in order to help with physical healing, emotional healing, spiritual healing and soul retrieval. **In 2 days learn this groundbreaking technique, get to understand and practice The Simpson Protocol completely, so you can begin using it with your clients immediately. The training covers:**

- History of Esdaile and how the protocol developed.
- Methods and pre-talk to allow your client to avail themselves of these deep and high states.
- Seeing how to get a client to go to Esdaile and beyond.
- Experiencing levels of Esdaile and beyond.
- Learning the steps that must always be used in the order of usage and what can be allowed to change to allow your own intuitive process.
- Ideomotor responses train the brain to use them.
- How to let the mind lead the sessions
- How to show the client they are in those deep and high states, validating them to be recognized by the conscious mind.
- Questions to ask the higher mind
- Different methods of change work
- Bringing it all together
- Validating the issue has resolved
- Teaching self-hypnosis to all the levels
- Practice, Participation with Q & A.
